The Association:

The Council of Forest Industries is the voice of the BC interior forest industry. Our members range from large integrated global scale public companies to medium sized family owned operations to smaller independent niche players. They produce a range of products including lumber, pulp and paper, panels and engineered wood in over 60 facilities located throughout the interior. All aspects of our members' operations from forestry to production to sales are recognized as world class. We are recognized for our sustainable forest practices, cost competitiveness, and support for green building.

The COFI Annual Convention

The convention is the largest gathering of the forest industry in Western Canada and attracts forest industry CEOs and their senior management and production teams from continental North America and offshore, senior representatives from customers, suppliers, financial institutions, law firms, First Nations, local government, chambers of commerce, Federal & Provincial Ministers, MPs, MLAs and senior civil servants.

The convention alternates between Prince George, BC and Kelowna, BC. The next COFI Convention will be held in Kelowna on April 6th to 8th, 2016. Proceeds from the success of the annual convention go towards supporting ten \$1,000 Entrance Scholarships to be awarded to students enrolling in professional, technical or trades studies at one of the 10 BC Interior Colleges or Universities, leading to a career in the Forest Industry.

Council of Forest Industries
